BROOKS' NORMAL MENTAL ARITHMETIC, A complete text-book upon the subject of Mental Arithmetic, acknowledged to be the most philosophical and exhaustive work of the kind that has yet appeared, is now used as a standard work in the majority of the best schools in Pennsylvania. It contains a few pages of Mental Algebra, showing the use of the algebraic letters in working problems involving unknown numbers. unknown numbers. BROOKS' KEY TO NORMAL MENTAL ARITH-

METIC, A lucid expositor to the above, contains many excellent suggestions and as an assistant to the teacher of Mental Arithmetic, or the private student, will be found of great value. It contains valuable suggestions on methods of Teaching Mental Arithmetic, and also an interesting collection of problems for working up classes during a dull exercise. BROOKS' NORMAL WRITTEN ARITHMETIC, Designed to accompany the Normal Mental Arithmetic, is so admirable a treatise upon the science of numbers that it has caused the repeated revision of other works with which it has come in competition.

THE PLAN, SCOPE, THOROUGH-

NESS and perfect simplicity of this Series command it to the judgment and approval of all who examine it. It em-braces the following works:

BROOKS' NORMAL PRIMARY ARITHMETIC.

Designed for the child's first text-book in the science of Arithmetic. A thoroughly philosophical and original work in its plan and treatment.

BROOKS' NORMAL ELEMETARY ARITHMETIC,

ARITHMETIC, Designed as a Key to the above in which the principles anmethods of Teaching therein presented are more fully develop cd, for the aid of instructor and Student. BROOKS' NORMAL ELEMENTARY GEOMETRY, Designed as an Elementary Work for Popular use, contains many new and simplified demonstrations in Geometry and many new and simplified demonstrations in Geometry and Trigonometry. It presents the practisal part of the subject in about one-half of the space usually devoted to it, without breaking the chain of logic, and is regarded as a most valuable addition to our educational literature. A number of Practical Problems are given after each Book, applying the principles taught in the demonstrations. Theories for original thought, without demonstrations, are also given, requiring pupils to try their unfledged wings in demonstrating without the said of the text.

These elegantly printed and superbly illustrated works have been made Text Books in many of our most celebrated school and colleges. Their plans, accuracy, and simplified mode of teaching Astronomy, have received the commendations of the learned both in Europe and America. The larger work is discovered to the commendation of the learned both in Europe and America. THE UNDERSIGNED RESPECTFUL-1 LY offers you his services as a Purchasing and Selling vided into five parts: The first treats of the laws which gov-erns heavenly bodies; the second, of the components of the solar system, and the phenomena attending their movements; His experience has been acquired by an actual and exclusive purchase and sale, during the past trenty years, of Dry Goods, Clothing, Boots and Shoes, Notions, Groceries, Hardware, solar system, and the phenemena attending their movements; the third, of the sidercal heavens, embracing the fixed stars, clusters and nebulda; the fourth, the principal instruments used in the observatory; and the lifth, of the globes, to which are appended two celestial maps and a comprehensive Astronomical Dictionary. In the "Abridged" volume the contents are identically the same, excepting that in the latter all is omitted after Part fourth. The late eminent author and astronomer, Dr. Thomas Dick, of Scotland, in reviewing this educational work says: Queensware, Stoves, Agricultural Implements, &c., for both the wholesale and retail trade. Buring the past year he has spent much time among the Manufacturers of the North, with many of whom he has made arrangements to fill all cosh orders sent through him at their arrangements to fill all cosh orders sent through him at their tomest prices; especially in Boots and Shoes, Umbrellas Photograph and Ambrotype Materials, Table and Pocket Cutlery, Cane-Seated Chairs, Portable Steam Saw Mills, Horse Powers, Mill Findings, Shingle and Lathe Machines, Railroad Supplies, Buggies and Harness, Cotton Gins of the best make, Agricultural Implements, and Farming Machinery of all kinds, together with all kinds of Machinery necessary for the manufacturer of Cotton or Wool.

It has been the especial aim of Sower, Barnes & Potts to supply this great want in their School Publications, and this work on Familiar Science has been accepted by them as admirably calculated to meet the educational necessity above referred to. The immense sale the work has already had is the best evidence of the high evidence in which it is held among those best able to judge of its merits.
